

# 20 LT Meter Union Guard

20 LT Meter Union Guard

## Description

The Highfield 20 LT Meter Union Guard is a rugged three piece construction of case hardened steel with corrosion resistant plating. It is a cost effective, easy to install locking device that completely encompasses the meter union nut to eliminate unauthorized removal of the gas meter, and prevent unsafe gas meter bypasses.

Just add a barrel lock to complete the installation. Highfield offers a variety of barrel locks for you to choose from.

## Benefits/Advantages

- ◆ Case Hardened Carbon Steel
- ◆ Blind disc Supplied with each Meter Union Guard
- ◆ Accepts Standard Length Barrel Locks
- ◆ Cost Effective

## Standard Application

### Note:

**For those applications requiring the flow of gas be blocked for non-payment, a blind disc is shipped with each MUG. Merely turn off the gas valve, remove the meter union nut, insert the blind disc, tighten the meter union nut and install the MUG with barrel.**
