

Garrison Series

REVOLUTIONARY BARREL LOCK & KEY SYSTEM

FEATURES

- Pin & Tumbler Actuation
- Stainless Steel Construction
- Standard Weather Seal
- Corrosion Resistant
- Front & Side Entry Ring Compatible
- Preload Capability
- Ergonomic Design for One-Handed Operation
- Multiple Key Orientations
- Hundreds of Key Combinations

THE NEW STANDARD IN UTILITY SECURITY & REVENUE PROTECTION

Built on Highfield's 80+ years of experience, the Garrison Lock and Key System offers the highest level of utility security and revenue protection. Productivity enhancing features include preload capability, a dual-orientation key interface and a standard weather seal that eliminates sleeve rotation when fully enveloped in a lock housing.

GARRISON LOCK & KEY SYSTEM BENEFITS

- Stainless steel construction resists corrosion for longer service life
- Standard weather seal protects interior components from harsh environments & inhibits lock rotation for single-handed operation
- Barrel lock enables easy installation in front & side entry rings
- Improved key handle design allows for multiple key orientations & faster service access
- Hundreds of non-interchangeable, unique key code combinations registered & controlled at the factory for total key control

HIGH SECURITY SOLUTIONS FOR UTILITY PROVIDERS

- Electric utility
- Gas utility
- Water utility
- Telecommunications & CATV utilities
- Other applications
