### **Highfield Manufacturing Company Launches New Website**

**Cudahy, WI** — Highfield Manufacturing Co., a Division of Rexnord LLC., would like to extend an invitation to explore their new website. The newly designed website is focused around giving visitors a user-friendly experience that makes it easier to find the right locking solution for the electric, gas, water and telecommunications industries.

The site's new and expanded functionality makes it convenient for visitors to find information regarding Highfield's products and the industries and applications that they have supported for over 80 years.

Some of the helpful features include:

- **Responsive Design** will enable visitors to easily do business from a tablet or mobile device
- **Industry Pages** outline the value-added products that best serve the utilities industry
- **Resource Library** allows visitors to quickly narrow down their search for print collateral
- **Dealer Locator** makes it easy to find a manufacturing representative or regional sales manager in your area
- **Product Pages** do more than provide technical information, as they now provide all documentation, videos and related products

This valuable content is focused on helping customers with any product questions they might have. This new platform will also serve to keep visitors up-to-date with the latest content on product support, featured products, videos, and much more.

For more information on Highfield, A Division of Rexnord LLC., and to view the site, please visit [www.highfield-mfg.com](http://www.highfield-mfg.com).

### **About Rexnord Industries, LLC**

Headquartered in Milwaukee, Wisconsin, Rexnord is a global, multi-platform manufacturer of highly engineered power transmission products, with approximately 5,800 employees worldwide. Our diverse portfolio of critical systems components include: bearings, couplings, gears, FlatTop chain and modular conveyor belting, industrial chain, and aerospace bearings and seals. Founded in 1892, Rexnord serves a broad range of power transmission, process and mission-critical industries worldwide. Rexnord LLC is the parent company of Rexnord Industries. Additional information about the company can be found at [www.rexnord.com](http://www.rexnord.com).
