

Snap Lock Ring

Description

Now available from Highfield, the Snap Lock Ring is a cost effective meter locking ring designed with AMI and AMR meter installations in mind. The Snap Lock Ring is designed to be user friendly and requires no barrel locks, keys or hand tools to install. Just simply squeeze the two-piece Snap Lock together and it installs in seconds.

Benefits/Advantages

- ◆ Offered in either stainless steel or case hardened carbon steel.
- ◆ Installs without the use of a key.
- ◆ Ease of installation because of notched flange on ring.
- ◆ Manufactured to ANSI meter standards.
- ◆ Cost effective.
