## Description

Our shackle lock seal secures a variety of pedestals and sheet metal enclosures without the use of a key or hand tools. Fabricated from case hardened steel, this security device replaces disposable padlocks and seals used to secure various styles of enclosures.

## Benefits/Advantages

- ◆ Two piece assembly easily snaps in place without a key or hand tools.
- ◆ Replaces “one-time” disposable padlocks and seals.
- ◆ Reusable to reduce overall cost of ownership and reduce waste. Environmentally friendly.
- ◆ Can be supplied with printed, weather resistant utility warning tags.
- ◆ U-shaped shackle for flexibility in the field; can be destroyed if necessary.
- ◆ Available with color coded replacement aluminum seals for system integrity.
- ◆ Plated throughout to resist corrosive environments.

Part Number	Description
